Rajath. M.K

IBM18CS079

07 - RIP Protocol.

→ Created a topology as shown using 3 routers &
2 PC's

→ connected routers using serial ports & DCE cables.

→ Configured ip addresses using:
'ip address <address> <subnet>'

'Encapsulation PPP'

'clock rate 6400'

→ Configured RIP routing using 'router rip' & then
'Network address'

address → routes immidiate neighbours.
